### Commercial Property Insights – Protecting Commercial Property Against Hail (456288)

Hailstorms can be swift and destructive, damaging buildings, outdoor equipment and vehicles in a matter of minutes. For commercial property owners, such damage can result in destroyed property, costly repairs, business disruptions and lost revenue. Our Commercial Property Insights article offers preventive measures to protect buildings from hail damage.

In 2020, 6.2 million properties in the United States experienced one or more damaging hail events. Check out our Commercial Property Insights article to learn how to protect your commercial property against hail.

### Cyber Liability: Ransomware (153507)

Businesses of all sizes have become targets of ransomware—malicious software that infects a computer and either prevents it from working as it should or prevents access to certain files until the user pays a ransom. Our Cyber Liability article explains how ransomware works, how to respond to it and how to safeguard your business.

Check out our Cyber Liability article to learn more about how ransomware works, how to respond to the threat and how to protect your business against it.
