

2023 Top Home Hazards

The 2023 Personal Lines Market Survey, which gathered nearly 950 responses, was launched to gather insight into how homeowners consumers—like you—shop for and use their insurance. One of the areas explored the biggest perceived home hazards and risks.

Here's what was found:

1. Being underinsured due to renovations, changing rebuilding costs of homes, market values, etc.
2. Natural disaster (e.g., hurricane, wildfire, earthquake or flood)
3. Severe storm damage (e.g., hail damage)
4. Liability claim (e.g., a guest gets hurt in your home)
5. Growing list of policy exclusions
6. Theft
7. Fire
8. Vandalism
9. Insuring attractive nuisances (e.g., swimming pool)

How We Can Help

At SCS Agency Inc, ensuring that your home is properly insured is our top priority. We're here to be your trusted insurance advisor and provide you with the resources you need to understand gaps that may exist in your homeowners insurance and better understand your coverage details.
